

PRESS RELEASE

Gustav Rosenberger Award 2024 open for submissions!

The Gustav Rosenberger Memorial Fund (GRMF) is a tribute to Dr. Gustav Rosenberger and is related to the World Association for Buiatrics. The Gustav Rosenberger Memorial Fund annually provides a grant of € 10,000 to a young and promising veterinarian, preferably from a country or area with suboptimal possibilities to develop veterinary knowledge in the field of cattle health. This GRMF grant is sponsored by [Boehringer Ingelheim](#).

The GRMF provides grants on a yearly basis to young and promising veterinarians who drive progress in bovine medicine, come from a country where bovine medicine needs further development, and intend to apply their knowledge in that country. The grant is to be used for an educative period of at least 3 months to increase the candidate's knowledge on bovine veterinary medicine by following courses or doing research. Candidates for the GRMF grant are veterinarians working in bovine medicine who have graduated no longer than 10 years prior to receiving the grant.

Every two years, the GRMF grant will be presented at the World Buiatrics Congress. The 2024 GRMF Award will be presented at the World Buiatrics Congress which will be held from 20 – 24 May 2024 in Cancun, Mexico. If you are a veterinarian or a scientist who is interested in hosting a veterinarian that could be a potential candidate for the grant, please visit our website www.gustavrosenberger.com for more information.

The deadline for submission for the 2024 GRMF Award is 31 January 2024.

Boehringer Ingelheim Animal Health

Boehringer Ingelheim Animal Health is working on first-in-class innovation for the prediction, prevention, and treatment of diseases in animals. For veterinarians, pet owners, farmers, and governments in more than 150 countries, we offer a large and innovative portfolio of products and services to improve the health and well-being of companion animals and livestock. As a global leader in the animal health industry and as part of family-owned Boehringer Ingelheim, we take a long-term perspective. The lives of animals and humans are interconnected in deep and complex ways. We know that when animals are healthy, humans are healthier too. By using the synergies between our Animal Health and Human Pharma businesses and by delivering value through innovation, we enhance the health and well-being of both. For more information visit www.boehringer-ingelheim.com/animal-health.
